Implementation

- Our admissions and recruitment processes are fair, transparent, and guided by clear policies to ensure there is no risk of discrimination. We maintain an accurate record of the protected characteristics of our students, staff, Local Governing Body members, Trustees, and job applicants, where appropriate. This data helps us understand the needs of our school community and informs our Equality Objectives, planning, and monitoring.

- We are committed to closing achievement gaps for students from specific cultural and ethnic backgrounds, those from lower-income households, students with disabilities, and those with special educational needs. We aim to provide tailored learning, teaching, and support to ensure all students make excellent progress, regardless of their individual needs, interests, aptitudes, or circumstances. We collect data and monitor the progress and outcomes of different student groups, which prompts action to address any emerging achievement gaps.

- We closely track attendance and exclusion data to identify any overrepresentation of particular groups and take swift action to address any concerns.

- We actively promote equality and diversity through the curriculum, especially through a comprehensive and challenging Personal, Social, Careers and Health Education (PSHCE) programme. We aim to showcase diversity through displays, resources, events, guest speakers, and role models. We offer students opportunities to hear diverse viewpoints, empathise with different experiences, and engage in social action. We are vigilant about the potentially harmful impact of negative language related to race, gender, disability, and sexuality.

- Our focus extends beyond academic achievement. Throughout their time with us, students engage in a wide array of innovative challenges and projects. Regardless of their interests, passions, or talents, we ensure all students participate in initiatives involving respected national and global partners, universities, and businesses. We monitor participation to target any underrepresented groups.

- The school's annual plan for Pupil Premium funding aims to mitigate the effects of disadvantage on students' progress and participation, providing opportunities for them to broaden their experiences.

- Our behaviour policy sets clear expectations for student and staff interactions, including our approach to addressing bullying, prejudice, and discrimination whenever they occur. Prejudice-related incidents are recorded, dealt with, and reported to the Local Governing Body.

- We recognise that people with disabilities may have different needs compared to those without a disability. This is always considered when making decisions about policies, services, or provisions, and may result in reasonable adjustments.

- Our Special Educational Needs Policy ensures that students with learning difficulties or disabilities receive the special educational provision they need. Our Examinations Policy outlines the procedures for access arrangements, ensuring all students can perform to the best of their ability.

- Our professional development programme for staff has a strong focus on equality issues and ensures equal access to development opportunities, aiming for participation that reflects the diversity of our staff community. We work to ensure that all staff benefit from professional development and are not hindered in their employment or promotion opportunities.

- As an employer, we are committed to equal opportunities and actively promote equality across all aspects of staffing and employment. We aim to eliminate discrimination and harassment in the workplace and follow good equalities practice in recruitment and retention. All appointments and promotions are based on merit and ability. We also strive to ensure that the staffing at all levels reflects the diversity of our community. Our policies address staff conduct, discipline, grievances, and dignity at work.

- The school's Complaints Policy outlines how we handle complaints, including those related to perceived inequality or discrimination, with a focus on prompt, informal resolution to avoid escalation.

- We regularly collect feedback from students, staff, and parents on their experiences with the school's provision, practices, and policies, and seek to involve a wide cross-section of the community in the school's development and improvement.

-All incidents of bullying, harassment, or discrimination, particularly those affecting students with protected characteristics, are treated as potential safeguarding concerns. Staff must escalate any concerns to the Designated Safeguarding Lead (DSL) and follow the school's Child Protection and Safeguarding Policy

Monitoring the policy's impact

We ensure the whole school community knows about our commitment to equality through all relevant communications, interactions, practice and policy.

This policy, including the Equality Objectives and data, is available on the school website and in the staff handbook. Its principles, expectations and commitments are built into curriculum and extra-curricular activities for students and professional development for staff throughout the year.

The school analyses all incidents of bullying, harassment, and discrimination by protected characteristic to identify any patterns of vulnerability and to take targeted action

Students

As part of the school's Self Evaluation, we collect the following information on our students:

- attainment and progress data,
- attendance data,
- exclusions,
- sanctions and rewards,
- involvement with extended learning opportunities including careers education
- involvement in intervention,
- option choices,
- parental engagement
- progression from Y11/Y13

Senior Leaders with responsibility for the above areas analyse this data routinely from an equality perspective in terms of:

- eligibility for Pupil Premium – a measure of disadvantage
- ethnicity
- prior attainment
- SEN and disability,
- sex
- with English as an additional language
- looked after status

Analysis of progress and attainment data after each collection informs short-term adjustments to teaching and learning plans, as well as targeted support and interventions. Analysis of end-of-year outcomes identifies specific areas for school-wide development, which are then incorporated into the School Improvement Plan.

Analysis of the wider data mentioned above enable us to identify differences between groups, and over/under-represented groups. This prompts a review of potential causes and the development of targeted actions to address these issues, which may include short-term measures or school-wide strategies integrated into the School Improvement Plan.

The school tracks incidents of prejudice-related bullying or harassment among students in line with the procedures outlined in the Anti-Bullying Policy.

Additionally, the school facilitates focused discussions with students, parents, and staff about students' experiences related to their religion and belief, sexual orientation, and gender identity.

Staff

In accordance with Employment Duty legislation, we collect equality information on:

- applicants for employment
- staff in post and on different pay scales/grades/points/levels of leadership
- participation in training
- pay progression
- internal promotion
- accessing flexible working

The HR department analyses this data routinely with respect to:

- age
- disability
- ethnicity
- marriage/civil partnership
- religion/belief
- sex
- sexual orientation

This analysis allows us to address barriers faced by under-represented groups and identify and eliminate any potentially discriminatory practices.

The school actively seeks feedback from staff and facilitates focused discussions about their experiences related to sexual orientation, gender identity, and pregnancy/maternity.

Additionally, the school monitors incidents of prejudice-related bullying or harassment involving staff, following the procedures outlined in the Dignity at Work and Grievance policies.

Review of the policy

This policy will be reviewed annually by the Lead Assistant Headteacher and the SLT team.

The Governing Body will review equality outcomes and objectives annually, scrutinising data on students and staff to ensure compliance with the Equality Duty and to inform future strategic planning
